Seeking an Information Technology position where a valuable combination of programming skills and expertise in multi-platform network administration and installation will add value.

WORK EXPERIENCE

Backend Developer

JNRM Corporation | B5 L3 Grand
Industrial State Parulan, Plaridel,
Bulacan

MAY 22, 2023 -
AUGUST 25, 2023

During my internship, I collaborated with a development team to build a robust inventory and reservation management system for Royal Charm using Laravel and MySQL. I played a key role in designing RESTful APIs, database schemas, and ensuring seamless integration within the Laravel framework. Using Postman for API testing, I validated backend reliability. I also worked closely with the frontend team to enhance communication between frontend and backend, improving operational efficiency and user experience.

Junior Web Developer

Nityo Infotech Services Philippines Inc
Unit 1001, 139 Corporate Center,
Valero Street

FEBRUARY 12, 2024
- FEBRUARY 11,
2025

I work as a Junior Web Developer at Nityo Infotech, where we are outsourced to Trade Dynamics. My role at Trade Dynamics involves handling client requests, such as implementing enhancements. We use HTML, CSS, Bootstrap 5, JavaScript, and CakePHP for backend development. Our main project is the Engagia website for Trade Dynamics, which is designed for sales force automation. In addition to feature development, I also resolve bugs and conduct unit testing using PHPUnit.

SOFT SKILLS

- Strong Problem-skills and analytical skills.
- Eagerness to learn and continuously improve skills and knowledge.
- Excellent attention to details and organizational skills.
- Ability to work independently and manage multiple projects simultaneously.
